Disability Services

Justin Rogers, Secretary
Department of English

About Us

The goal of the LGBTQ Professional Network is to encourage and support the professional development of its members by providing opportunities for networking, peer support, education, and communication.

The LGBTQ Professional Network is open to all gay, lesbian, bisexual, and transgender faculty, staff, and graduate students at Texas A&M University (TAMU), as well as their straight allies. We also welcome members of the Bryan/College Station LGBTQ and ally community who are not affiliated with TAMU.

We hold social events on the 2nd Wednesday and 4th Thursday of every month. Locations are announced on Facebook, through our listserv, and website. We are always looking for new ways in which our members can interact and feel connected to the local community. We all look forward to meeting new members of the organization, making new friends, and working together to raise awareness and develop a stronger community!
